

# ALUMINUM SILOS

External storage of solid  
powders and granules

## Benefits:

---

Storage of products with bulk density  
up to 1.2 kg/dm<sup>3</sup>

---

Long life thanks to construction material

---

Completely waterproof and weatherproof

---

Elimination of internal condensation in the  
version with insulated double wall and option  
of fitting a dehumidification system in extreme  
environmental conditions

---

Completely hygienic with high degree of  
preservation of raw materials, in compliance with  
food hygiene standards

---

Compliant with Atex Directive

---

Construction according to DIN and Eurocode  
standards

---

Construction material fully recyclable after  
decommissioning

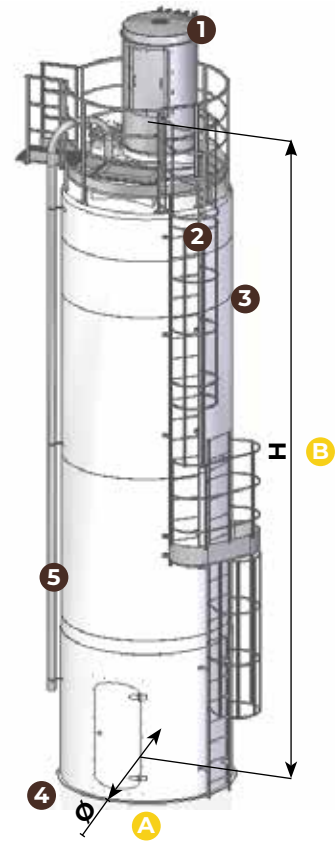

---

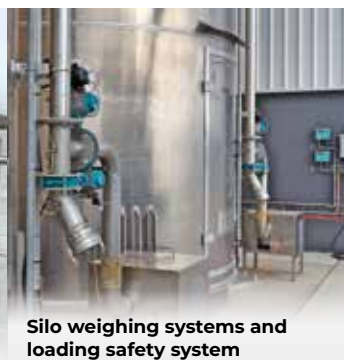

## TECHNICAL DATA

- 1 Filter
- 2 Access ladder
- 3 Silos
- 4 Weighing system
- 5 Loading pipe

	Size	Min.	Max.
A	Ø [mm]	1500	5500
B	H [mm]	3500	26000
	Capacity [m <sup>3</sup> ]	5	500
	Loading flowrate [kg/h]	1000	30000
